

Douglas Motor Cycles REPRO BOOKS

In the past only a few reproductions of original Douglas literature were made, mainly because of the high cost of the small print runs, aged or damaged originals unsuitable for direct copy, and the very limited market. As a Douglas owner I wanted to improve matters. The reproductions available here are complete books (NOT PHOTOCOPY), and are as near to the original publications as possible using modern materials. All reproductions include original printers marks etc, where applicable. Colour brochures and posters kept as close to the originals as possible although actual size can have small variations due to the capacity of my graphics printer. I am not a company, just a Douglas enthusiast like yourself working from home, restoring Doug's and providing this small service to fellow members. To assist in ordering, a part number is shown alongside price. All prices are shown in Australian Dollars. Post & packing within Australia please add \$3 per book. A maximum of 9 dollars for any quantity. UK. orders please divide dollars by current exchange rate. Because of the high cost of Airmail to UK or USA please add 2.50 Pounds or equivalent per book. A maximum of 9 pounds for any quantity. I can send Sea Mail for the same cost as Australian buyers but it can take up to eight weeks to arrive! Another option for Australian or overseas buyers with a credit card pay via- WWW.PayPal.com Make payment to: jwithers@digisurf.net.au quoting part number and postal address. No objection to cash from Australia, USA, or UK. (No sticky fingers this end) International Bank Drafts in Australian Dollars please. No personal cheques or money orders from outside Australia, the banks charge too much to cash!!! Larger quantities available at special rates, please enquire.

November 2007 issue. Supersedes previous lists.
